

By AUTHORITY.

Notice.

OFFICE OF THE BOARD OF HEALTH,
HONOLULU, Sept. 21st, 1895.

The following is the law relating to Regulations of the Board of Health and penalty for their violation:

Civil Code Sec. 284. "Notice shall be given by the Board of Health of all regulations made by it, by publishing the same in some newspaper of the district, or, where there is no such newspaper, by causing them to be posted in three public places of the town or district; and such notices of such regulations shall be deemed legal notice to all persons."

Section 295. Every person who shall violate any regulation of the Board of Health, after the same shall have been published, as provided in the last section, shall be fined not exceeding one hundred dollars."

WILLIAM O. SMITH,
President of the Board of Health.

Notice.

The Committee of Ways and Means appointed by the Board of Health to formulate plans and provide means for the disinfection of the infected portions of Honolulu, have been busy for the past few days getting ready for the work which will be commenced on MONDAY. The work of the Committee will not be effective unless it has the co-operation of the citizens of Honolulu.

The business men of Honolulu are requested to suspend all business for that day, in order that those in their employ may be able to comply with the Regulations of the Board of Health, or to volunteer their services as Sub-Inspectors.

All persons having servants sleeping at their own homes, are requested to give them an opportunity on next Monday, the day set apart for the general house-cleaning, to visit their places of abode, in order that they may comply with the Regulations of the Board of Health.

Committee of the Board of Health of Ways and Means:

J. MARSDEN,
Chairman.

Notice to Shippers of Freight.

OFFICE OF THE BOARD OF HEALTH,
HONOLULU, H. I., SEPT. 19, 1895.

Until further notice, excepting upon special permit, no freight will be allowed to be shipped from Honolulu, to other ports of these Islands, from any other wharf than the Pacific Mail wharf.

Freight shipped from the Pacific Mail wharf will be only merchandise from foreign ports which has been held in strict quarantine.

WILLIAM O. SMITH,
President Board of Health.
107-31

Regulation of the Board of Health.

INFECTED DISTRICTS.

The following portions of the Districts of Kona, Oahu, are declared infected districts:

First. All of the territory lying makai of King street to the sea, and east of Kalihi stream to the harbor, excepting the Kamehameha Girls' School premises.

Second. All of the territory lying:

1. East of the line of the road running mauka from King street on the Waikiki side of the Kamehameha school premises.

2. Mauka of King street.

3. West of Liliha street, and

4. Makai of the line of extension of School street.

Third. All of the territory lying:

1. East of Liliha street.

2. Mauka of King street, from Liliha street to the King street bridge.

3. West of the Nuuanu stream, from King street to Beretania street.

4. Mauka of Beretania street, from Smith's Bridge to Nuuanu street.

5. West of Nuuanu street from Beretania street to Kukui street.

6. Makai of the line of the extension of Kukui street, from Nuuanu street to the Nuuanu stream.

7. West of the Nuuanu stream, from the point of conjunction with the extension of Kukui street, to School street.

8. Makai of School street, from the Nuuanu stream to Liliha street, excepting the St. Louis College premises.

Fourth. All that territory lying between Beretania street and the sea, and from Nuuanu street west to the Nuuanu stream.

Fifth. All that territory lying:

1. Mauka of School street, from Fort street to Punchbowl street.

2. East of the line of the extension of Fort street.

3. West of Punchbowl street, from School street to Sylvia's nursery.

4. Makai of a line drawn in extension of the line of Sylvia's makai fence to the point of intersection of the extension of Fort street.

Sixth. All that territory lying east of Punchbowl street to Sheridan street and makai of Queen street and the line of extension thereof, from Punchbowl street to Sheridan street; and also all buildings on or adjacent to the lower end of Sheridan street.

REGULATIONS FOR UNINFECTED DISTRICTS.

All clothing and articles made from cloth, now or heretofore, in use, not newly washed, and all beds and bedding, now or heretofore in use, in the District of Kona, Oahu, in those portions not named as infected Districts, are hereby ordered to be thoroughly sunned and aired by the owners or those in control of same for at least eight hours of sunshine and dry weather. All houses in said uninfected Districts to be thoroughly cleaned and aired, and, where necessary disinfected by those in possession and control of same.

REGULATIONS FOR INFECTED DISTRICTS.

In the said infected Districts, all clothing and other articles made from cloth, not newly washed, now or heretofore in use, which will not be injured by boiling, shall be thoroughly boiled and sunned until completely dry. All other clothing or articles made from cloth, now or heretofore in use, including all beds and bedding, and also all carpets, mats and rugs shall be taken out, cleaned and thereafter sunned and aired for at least eight hours of sunshine and dry weather. All unpainted walls, wood floors and interiors to be whitewashed or disinfected. All painted floors and interior walls, door and window casings and veranda rails to be washed with a disinfecting solution.

CONTROL OF BOARD OF HEALTH.

All work prescribed under this order, for both infected and uninfected districts, shall be begun not later than 8 a. m. MONDAY, September 23, 1895, and continued until completed. Said work shall be done to the satisfaction of the Board of Health, and shall be subject to the inspection and control of its Agents, who shall have the authority to name the disinfecting solutions and other materials to be used, and direct the application thereof.

By order of the Board of Health.

WILLIAM O. SMITH,
President Board of Health.
Honolulu, Sept. 19 1895. 107-31

Regulations of the Board of Health.

OFFICE OF THE BOARD OF HEALTH,
HONOLULU, H. I., September, 20 1895.

The Regulation of the Board of Health prohibiting the holding of public meetings in the district of Honolulu is modified to the extent of permitting Church services and Band concerts to be held in the day time.

WILLIAM O. SMITH,
President Board of Health.
107-21

Tenders for Drugs and Medical Supplies.

OFFICE OF THE BOARD OF HEALTH,
HONOLULU, Sept. 19, 1895.

Sealed tenders will be received at this office until WEDNESDAY, September 25, 1895, 12 M., for furnishing Drugs and Medical Supplies to all district government physicians, hospitals and dispensaries under control of the Board of Health, for the term of one year, from October 1, 1895.

A list of the Drugs and Medical Supplies can be procured on application at this office. The articles to be furnished must be of the very best quality only, and should be up to the requirements of the Pharmacopoeia of the United States of America, unless otherwise ordered.

The Board of Health does not bind itself to accept the lowest or any bid.

WILLIAM O. SMITH,
President Board of Health.
106-31

Tenders for Beef Cattle.

OFFICE OF THE BOARD OF HEALTH,
HONOLULU, H. I., SEPT. 19, 1895.

Sealed Tenders will be received at this office until WEDNESDAY, October 2, 1895, for supplying the Leper Settlement at Mokolai, with (1) good Beef Cattle, to weigh not less than 350 lbs. net, when dressed; and (2) fat Beef Cattle, to be delivered at the Leper Settlement at an average of ninety head per month, for six months ending March 31, 1896.

The tender for fat Beef Cattle must be for the price per pound dressed, and that for good Beef Cattle per head. Hides and Tallow to be the property of the Board.

Bids should be marked "Tenders for Beef Cattle, Leper Settlement."

The Board does not bind itself to accept the lowest or any bid.

WILLIAM O. SMITH,
President Board of Health.
106-31

Bicyclers are likely to get cut, scraped, sprained, bruised, or some way hurt. No matter which, an application of Redding's Russia Salve will take away the smart and pain, and cure the trouble in a hurry. Thousands of wheelmen never go on the road without it. Why should you? 25 cents buys it of any druggist. Handy box for your pocket. Hollister Drug Co., Agts.

OBSERVATIONS.

Attention was lately called in this paper to the old-fashioned sanitary arrangements at the premises just converted into a place for a new high school. There has been no change in the plans, however, and they are a disgrace to the Government. Either a modern ater system, for which there is surely plenty of water now, or a dr earth system ought to be adopted. If the former the system should be well trapped and discharge into an iron-covered vault, and the latter be emptied and disinfected regularly every month. An earth system for such an institution should be thoroughly cleansed daily. Parents who intend sending their children to that school ought to take a look at the arrangements in question, and then join in a petition to have them changed before school is opened. Minister Damon predicted that when certain projected street changes are made, the site of the high school would be the heart of the town. Do not allow the heart of the town, then, to become a plague spot.

In another paragraph attention is called to the vile sanitary conveniences at the new high school. It would not be a bad idea to have a medical committee appointed by the Board of Health to inspect all schools, public and private, and report upon their sanitary conditions and arrangements. Kawaiahaeo Seminary was lately brought to the writer's attention in this regard, and, if no more intelligent is displayed as to sanitary matters in other boarding schools than in this one, the community need not be surprised if some frightful epidemics break out in these institutions. If the facilitation of such a terrible disease as diphtheria, for instance, was intended a more effective system could hardly have been devised. Lately it was found that the earthen pipes to convey slops from the laundry to a cesspool at a distant corner of a lot on the site were cracked up, so that the liquid was overflowing the receiving vault under the laundry house and running in the yard. The management had the pipes dug up, when it was found they were laid with criminal carelessness. It seemed as if the cement had been shoveled into the joints, for great junks of it were found inside the pipes, which had caught sediment and held it until the passage of the foul water was entirely stopped. Iron pipe was used in place of the clay, but with an utter disregard of the most simple rules of sanitary engineering. The pipe runs straight from near the top of the receiving vault about 75 yards to the cesspool, but without a trap or siphon or anything else in either vault or pipe to prevent the escape of sewer gas through the vents of the washtubs. There are many feet of wooden pipe leading from the washtubs to the vault, and when these get rotten inside there will be an unwholesome condition there independent of the other arrangements described. Should one case of diphtheria occur among the hopeful and happy Hawaiian girls staying in the school, and the clothes of the pa-

tient be washed in that laundry, the probability is that the disease would run through the dormitories like wildfire, and, but for this exposure of arrangements, it would puzzle the medical faculty for a while to find out the cause of the epidemic's sudden descent.

Since the remarks on the high school sanitary arrangements were written, we are informed that, at times within the last few years, the sanitary conditions at the Royal school have been simply frightful. Let there be a general inquiry into the sanitary conditions at all the schools.

THE SANITARY COMMITTEE.

MEETS AND PASSES A RESOLUTION TO DISBAND.

Paid Inspectors Recommended in Place of Volunteers—Records to be Transmitted to Government.

The Central Sanitary Committee met at 1.30 this afternoon at the office of Carter & Kinney. Present, Chairman Colburn, secretary McStocker, and Messrs. Gear, Rowell, Macfarlane, G W Smith, Kinney, Kane, Marsden and Thurston.

On motion of W A Kinney the work of locating and numbering the houses, etc., commenced by C V E Dove was ordered continued, subject to the approval of the Board of Health as regards payment, the expense thereof not to exceed \$125.

On motion of Mr. Thurston it was decided to recommend to the Board of Health that the work of inspection commenced by the committee be continued by the Board of Health under paid inspectors, one for each district.

In view of the fact that the cholera is practically stamped out and that there is really nothing more for the committee to do, a resolution stating its intention to disband as soon as the bills contracted were audited was passed.

Thanks were voted to the inspectors and sub-inspectors for their services, and to Carter & Kinney for the use of their rooms.

The committee will recommend a number of persons to the Board of Health this afternoon for appointment as permanent sanitary inspectors.

All the records, reports of inspectors, etc., of the committee will be turned over to the government.

JUDICIAL JOTTINGS.

Will of the Late Thomas Sorenson—Cattley in Default.

W. F. Allen, guardian of the Ofpergelt minors, has rendered his first account, showing receipts of \$6119.42 and a balance of \$5459.23.

Judge Cooper has granted a motion of P. George Gow, by his attorney, Alfred S. Hartwell, for default against Edwin S. Cattley, who was lately extradited to San Francisco for embezzlement.

The will of the late Thomas Sorenson has been filed. It was executed May 3, 1892, and leaves his whole estate to his wife Karen Sophia and William O. Smith as trustees, for the support of his wife and their children until the latter come of age. After the children come of age the property is to be devoted to the support of the wife for life. Mrs. Sorenson may pay off a mortgage on certain real estate on Alakea street, out of her husband's life insurance in the American Legion of Honor, in which case that property shall become vested in her, her heirs and assigns. A codicil dated March 5, 1894, substitutes the testator's son, Olaf L. Sorenson, for William O. Smith as trustee.

A notice to inspectors appears elsewhere.

—ON THE—
WERTHEIM

TRIPLE OR THREE-STITCH

Sewing Machine

This week we want to call the attention of the ladies of Honolulu and the Hawaiian Islands generally to the merits of the Wertheim Sewing Machine. This is provided with a Belgian invention by which three different stitches may be sewn according to the will of the operator. Whether the lady of the house wants a single chain stitch or a combined two-thread or embroidery stitch without in any way impairing the excellence of the machine as a lock-stitch one, is simply a matter of pressing a button, this machine does the rest. With this machine by simply pressing a button either a lock stitch, chain stitch or combined lock and chain stitch is produced as desired. In other words this one machine performs the work of three distinct ones, and not content with that can furnish in addition a beautiful darn in linen as well as woolen materials and underwear by means of its far reaching chain stitch, and the need of any special darning appliance is therefore avoided. To produce the chain stitch all that is necessary is to press down a button near the stitch regulator and move it from left to right and go right along with your sewing.

For dressmakers and those who have much making over to do, this machine is the best out. The chain-stitch is easily unraveled by undoing the last loop at the end of the seam, and although the embroidery stitch is just as firmly locked as the lock stitch and is much more elastic, yet it is easily undone. All the operator has to do is to draw out the interlaced shuttle thread and the chain stitch remains, which latter unravels easily as stated above. The machine can readily be changed from one stitch to another and back again to the ordinary lock stitch without any danger of getting out of order.

"Seeing is believing" is an old and true saying and we cordially invite all the ladies to come in and see this machine in actual operation in our store.

We have a large number of these elegant machines on hand and will sell them at reasonable prices. We guarantee them to do all that we advertise.

There are any number of ladies in this city whose hearts would be made glad by one of these machines in place of the antiquated ones they are now using, and if their husbands only knew what was good for themselves they would come right down to the store in the morning and order one sent home.
